reliability and emotion,
that brings out various smiles in people.
TOA is a company that makes their smiles
come true within the society they inhabit
and provides irreplaceable values
that cheers them up even more,
thanks to our audio notification capabilities.

Smiles for the Public

Management Policy

[Basic Management Policy (Three Confidences)]

Total
confidence of
our customers in
the use of all
products

Total
confidence of our
associates in all
business
transactions

Total
confidence of
our employees in
all their efforts

TOA continues to meet
our corporate social responsibilities
for the future.

Quality Policy

TOA has earned global recognition
for our total quality management.

TOA acquired an international standard certification for the ISO9001 quality management system. Our total quality management, from design, development and production to after-sales service, has earned global recognition. Moreover, we promote eco-friendly technology and product development, which has also helped us acquire the ISO14001 international standard certification for environmental management.

Environmental Policy

We address environmentally
aware efforts.

TOA Environmental Philosophy

TOA recognizes global environmental preservation as one of our key management challenges and we all proactively engage in environmentally aware actions in our corporate activities.

PROGRESSIVE

To continuously incorporate the high technology
and pursue a high degree of specialization.

INTERNATIONAL

To make a global contribution in the field of
communication through sound.

MODERN

To respond appropriately and quickly to rapid
changes occurring in society.

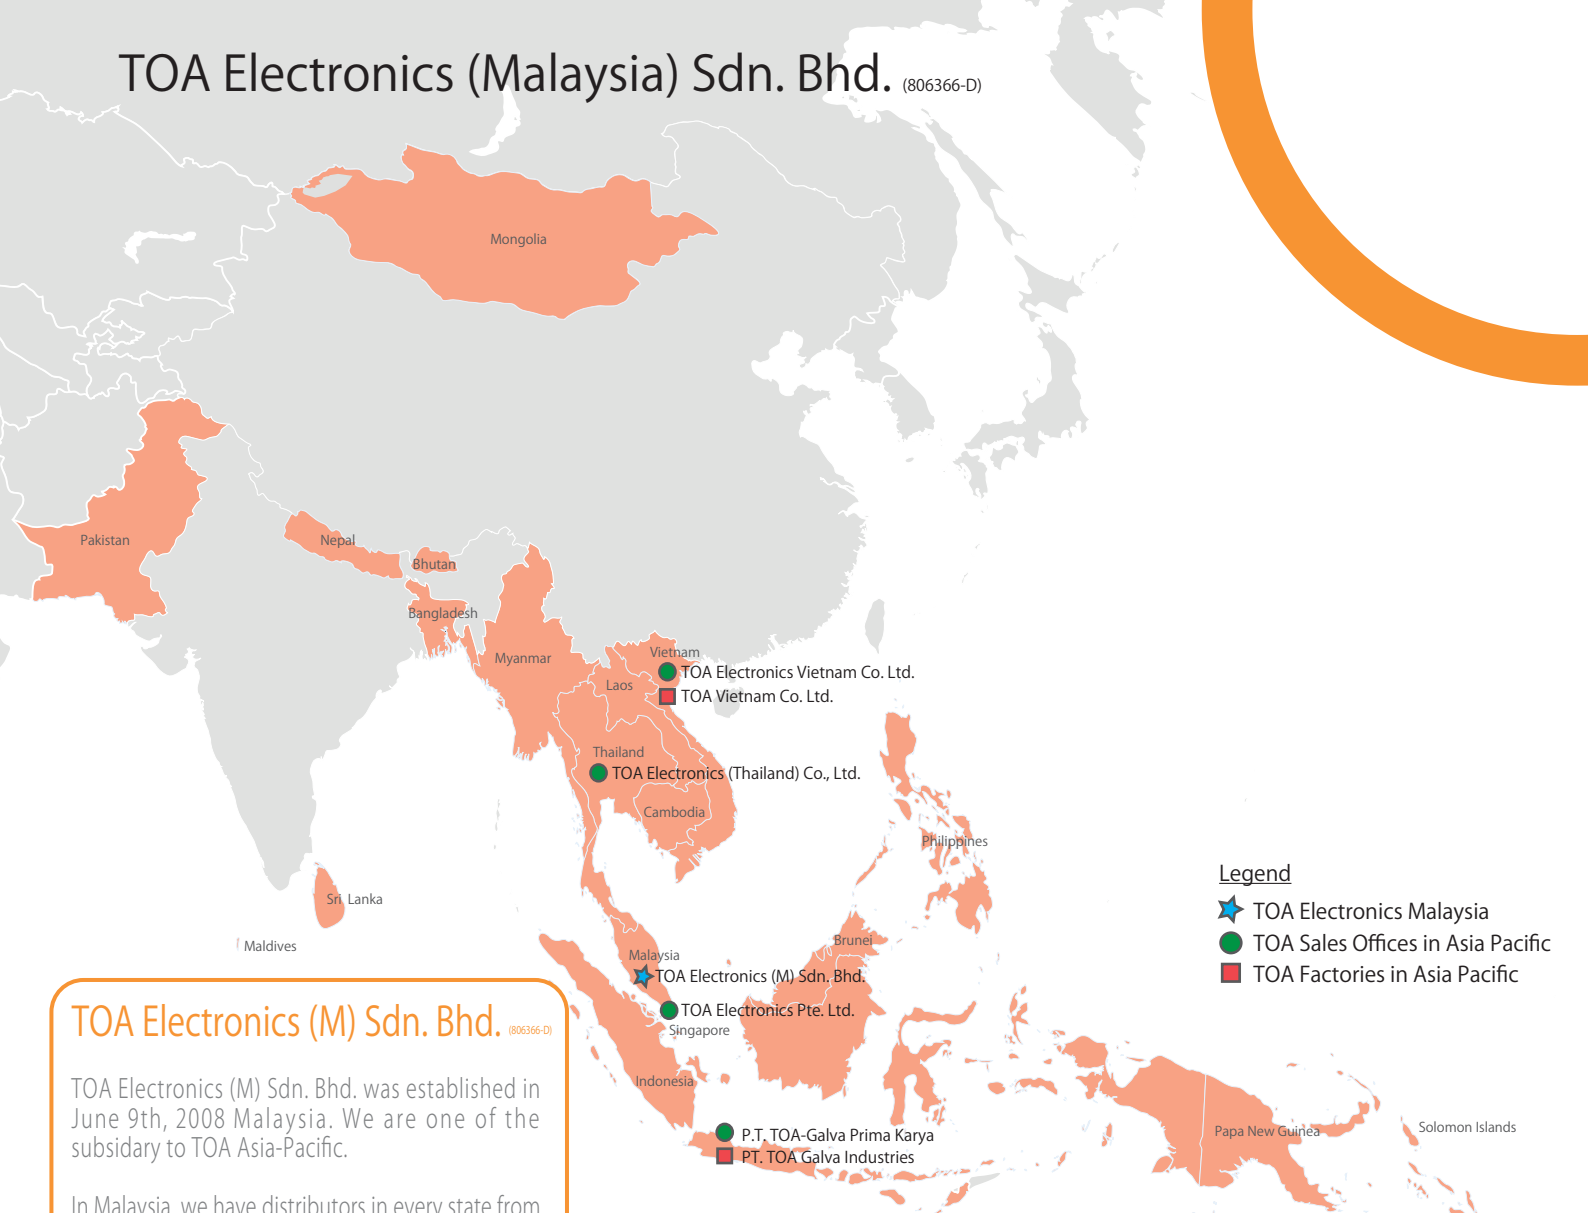

DYNAMIC

To make an effort as individuals to create
products of the highest quality and value.

Based on the letter T,
the TOA logo
symbolizes our four
corporate objectives:

TOA's Installations

TOA products play active roles in a range of global scenes.

NOEVIR STADIUM KOBE
[Sports Facility]

TOA's sound and information systems help each event proceed smoothly, while also boosting emotion and excitement at the venue.

Tokyo Metropolitan Government Building [Government Facility]

The Tokyo Metropolitan Government Building is a huge building and familiar as an information base for the Tokyo administration and a venue within which Tokyo citizens communicate and interact. We support people's safe and comfortable lives by providing Public address/Emergency broadcast system and PA systems.

Wimbledon Tennis Court
[Sports Facility]

Wimbledon Tennis Court is the U.K.'s largest tennis venue. TOA's sound system help ensure the Wimbledon Championships, one of the world's most prestigious annual tournaments, proceed smoothly.

ION ORCHARD
[Commercial Facility]

ION ORCHARD is a huge shopping mall on Orchard Road in Singapore. Our Public address/Emergency broadcast system delivers the required information, while line array speakers support their event operations outside the building.

National Convention Hall of Yokohama
(PACIFICO Yokohama National Convention Hall)
[Conference Hall]

The National Convention Hall is a large convention venue within PACIFICO Yokohama; located in the new city center of the Minato Mirai 21 area in Yokohama and showcasing our high-grade sound system, fit for any international convention hall.

SGI Asia Culture and Educational Centre (ACEC)
[House of Worship]

Situated in Johor Bahru, Malaysia, ACEC is the biggest training centre in Asia, outside of Japan for Soka Gakkai International. Our HX-7 was proposed and installed alongside with various amplifiers, speakers and wireless microphones to meet the

Our Tampines Hub
[Commercial Facility]

Singapore's first-ever integrated community and lifestyle hub. The vicinity consists of a variety of sports facilities, library, retail and F&B shops, community clubs and amenities. Our PA and Emergency Broadcast systems including speakers serves the entire hub.

Balikpapan Islamic Center
[House of Worship]

Located on Indonesian island of Borneo, the Balikpapan Islamic Center can host up to 10,000 worshippers indoor and outdoor. A extensive range of TOA speakers lined the entire 11,040m² together with our digital mixers and digital power amplifiers.

Sagrada Família Basilica
[Houses of Worship]

The Sagrada Família is a World Heritage Site, where TOA's line array speakers deliver the sermons of a priest and hymn singing with utmost clarity.

MATSUSHIMA ICHINOBO [Hotel]

The MATSUSHIMA Convention Hall installed in MATSUSHIMA ICHINOBO. We help establish a sound environment conducive for events within the hotel, including a range of conventions and wedding receptions.

Cartoon Network Amazone [Theme Park]

Cartoon Network Amazone is one of the largest family-oriented water parks in Asia with Cartoon Network as theme; located in Pattaya, Thailand. TOA supports the establishment of a broadcasting system, including line array speakers on the main stage.

Yishun Community Hospital [Medical Facility]

Yishun Community Hospital is one of Singapore's largest community hospitals to provide rehabilitation services. TOA's PA and Emergency Broadcast systems including speakers serves the entire facility.

Marina Bay Financial Centre Tower [Complex]

Marina Bay Financial Centre Tower is a huge commercial complex, symbolic of Singapore. Within its office tower, TOA's broadcasting system and speakers support efforts to establish a safe and comfortable environment.

Yale-NUS College [Educational Facility]

Yale-NUS College is an institution founded by Yale University of the U.S. in collaboration with the National University of Singapore, which was the first college founded abroad. Our IP intercom system plays an active role as an on-campus communication tool.

Cathedral Basilica of the Assumption of the Blessed Virgin Mary [House of Worship]

This is the cathedral located in Pelplin, a town in northern Poland. Given the very large space and complicated architecture of the building including sacred edifice, the sound design was a challenge. However, TOA's sound system achieves premier sound quality and intelligibility.

The Sultan Salahuddin Abdul Aziz Shah Mosque [House of Worship]

This is known as the Blue Mosque, due to the beautiful blue building, which is the largest mosque in Malaysia. At the mosque, an active line array speaker delivers high-quality sound intelligibility.

Essex Civic Centre [Conference Hall]

At the Essex County Council Chambers located in Ontario, Canada, TOA's infrared conference system helps meetings progress smoothly. Infrared conference system can change layouts easily, as well as eliminating interference and divulging of information.
